SUPPLEMENTARY INFORMATION:

I. Abstract

SelectUSA, within the International Trade Administration, provides programs and services that focus on facilitating job-creating business investment into the United States and

raising awareness of the critical role that economic development plays in the U.S. economy. These programs include information products, services, and trade events to potential foreign investors into the United States and to U.S.-based economic development organizations. To accomplish its mission effectively, SelectUSA requires detailed information from clients in order to provide resources and services that meet each specific client's needs. This information collection item allows ITA to solicit clients' interest for the use of ITA products, services, and trade events. To promote optimal use and effective response to client needs through ITA services and programs, we are requesting approval for this clearance package. Upon approval by OMB, ITA will use the approved information collection to collect client input by the use of multiple data collection methods, including Comment Cards (i.e., transactional-based surveys), web-enabled surveys sent via email, telephone interviews, automated telephone surveys, and in-person surveys via mobile devices/laptops/tablets at trade events/shows. The use of these multiple data collection methods is suggested solely to reduce the public burden in responding to requests for input. Without this information, ITA is unable to systematically determine the actual and relative levels of user needs for its programs and products/services and to provide clear, actionable insights for client use. This information will be used for strategic planning, allocation of resources, and stakeholder reporting.

II. Method of Collection

The International Trade Administration is seeking approval for the following data collection methods to provide flexibility in conducting customer intake surveys and to reduce the burden on respondents: 1) an e-mail message delivering a hot link to a web enabled survey with an email reminder sent if the client does not respond to the survey within two weeks; 2) a telephone survey/interview; and 3) a web-enabled survey conducted in-person at trade shows/events via a laptop, tablet or mobile phone so participants can immediately respond without having to provide their e-mail address.
